**Football Club communication system between the board, staff and all supporters, even millions**

Every fan who certain support the club, (match attendance, payments, club promotion etc.) will get a number of vote rights proportionally with their support, for a limited period of time.

For example: 10 € = 1 vote right for 1 month, 30 € = 3 vote rights for 1 month

**We see the sponsors, investors, authorities, associations as SUPPORTERS too.**

**So the decision power will remain almost the same**, giving every single fan the opportunity to express his opinion, unless there will be a huge income boost from the fans. **Both situations are favorable for the club and every fan.**

On [www.realclubmanager.com](http://www.realclubmanager.com) the supporters are able to:

- 1) Vote decisions; (the voted decisions will be chosen and agreed by the board, staff and players from the supporters proposals)
- 2) Make a single decision proposal/week, a single tactics proposal/week and a single player proposal/week and to support the other fans proposals; (The board, the coach and the Sports Director will respond weekly only to the most supported 3 proposals. This way **responding to 3 proposals/week it's like responding to all supporters, even millions, in less than 30 minutes. It's like a communication blockcain.**)
- 3) Propose the starting line-up; ([www.realclubmanager.com](http://www.realclubmanager.com) will generate a single assumed and incontestable voice from all supporters and the coach will argue only the different opinions. Many times the coach and the supporters have the same vision, but the football passion generates lots of opinions. Using [www.realclubmanager.com](http://www.realclubmanager.com) most of the coach decisions will become incontestable.)
- 4) Evaluate the players;
- 5) Give real time instructions and to support the other fans instructions; (The coach will be informed about the proposals which exceed 20% support of all available voting rights. The coach will decide to apply/or not the instructions, but will have the best fans ideas on table, which can be great to consider.)

Being a new worldwide concept, by using [www.realclubmanager.com](http://www.realclubmanager.com), **the club can increase their incomes, increase the fans base, promote their players, attract new sponsors, attract new fans, motivate the players, coach, improve fans engagement, improve the communication between board, staff, players and fans etc.**

[www.realclubmanager.com](http://www.realclubmanager.com) it's available for free and can be easily adapt to any football club.

To not affect the current club operations, it can be created a separeted, transparent and updated **"supporters account"** and let them know that their decision will be limited to this one.
